**UNFCU FINANCIAL ADVISORS INCORPORATES INCOME SOLUTIONS® INTO ITS
RETIREMENT PLANNING PLATFORM**

-- Addresses Needs of Credit Unions and Non-profits --

NEW YORK, NY June 5, 2006 – To meet the needs of clients seeking to maintain a steady stream of income throughout their retirement years, UNFCU Financial Advisors announced that it has added Income Solutions®, an immediate annuity platform, to its suite of retirement offerings for credit union and other non-profit organizations and businesses.

Income Solutions specifically provides individuals with the ability to rollover a portion of their retirement savings into an annuity within an Individual Retirement Account (IRA). The platform offers competitive annuity quotes from eight insurance companies at institutional pricing levels. In addition, Income Solutions also contains an inflation adjusted annuity option which may enable retirees to protect their purchasing power, despite periods of high inflation. The product is based on the Consumer Priced Index (CPI) and enables individuals to receive automatic increases to their fixed income annuities based on the changes in the cost of living index.

“We realized that many institutions are seeking products to respond to the graying of America,” said Steve Ryerson, president of UNFCU FA. “Because Income Solutions enables individuals to supplement or replace retirement income, the product stands to become quite popular among our client base.”

The Income Solutions® program was launched by Hueler Investment Services of Minneapolis, Minnesota, in 2004 and was created specifically for “transitioning investors,” (both active employees and retirees) who have reached a point in their lives where they want or need to convert a portion of their "nest egg" or retirement assets into a reliable income stream. The solution gives retirees more monthly income for a lower initial cost than is available with traditional, retail annuities.

“We are very pleased that UNFCU Financial Advisors has decided to offer Income Solutions as part of their wide array of retirement planning vehicles,” said Kelli Hueler, president of Hueler Companies. “In so doing, we will be helping credit unions broaden their appeal and also serve the underserved – one of their key constituents.”

UNFCU FA offers a comprehensive suite of programs and services to uniquely address the saving and investment needs of credit union/other non-profit organization members of all income and asset levels, particularly those nearing and or in retirement. With its launch, UNFCU FA is the first entity of its kind to offer Income Solutions®, a low-cost retirement immediate annuity platform to the credit union community.
